

# CAMERAS & Community

# MY BHAM 311 / APP

Resident safety is a top priority in District 1. Since our last edition, there have been 17 security cameras installed to deter crime and promote safety.

To submit your concerns or report an issue call 311 or download the MY BHAM 311 App, available on App Store & Google Play.

# KNOW YOUR CODES.

Beautification matters. When our community looks its best, it fosters a sense of pride, ensures resident safety, and contributes to a healthier and more enjoyable living experience.

As proud members of District 1, it's our shared responsibility to ensure we keep our neighborhoods vibrant. From removing hazardous materials and debris to maintaining clean streets, it's critical to understand your Birmingham City Codes and common misconceptions that lead to violations.

Learn more about Birmingham City Codes at [www.birminghamal.gov/code-enforcement](http://www.birminghamal.gov/code-enforcement).

## Top Three Code Violations

**1) Parking Your Car On The Grass:** Contrary to popular belief, this is not allowed. Grass parking can lead to soil compaction, which can cause erosion and runoff issues. Beyond that, it creates an impression of neglect. So please help us keep District 1 vibrant and inviting!

**Residents can be fined \$50 per vehicle, per day for parking in their yard**

**2) Improper Trash Pickup:** The City of Birmingham recently invested in new uniform trash bins for all households in the city. However, leaving cans on the curb for more than 24-hours is a common code violation. Also, all trash must be placed inside the bin; anything propped up on the outside or stacked on top will not be collected and leads to litter being spread around in our streets.

**3) Bulk Trash:** Bulk trash pickup happens once a month in all of Birmingham's 99 neighborhoods. Too often we observe residents leaving huge piles of trash out weeks in advance. Do your neighbors a favor; find out when your neighborhood is scheduled for bulk trash pick up and what items are allowed.

**Residents can be fined up to \$1,000 for illegal dumping of bulk items**

That information can be found at [www.birminghamal.gov/bulktrash](http://www.birminghamal.gov/bulktrash).

## Do YOU Have What It Takes To Be A Litter Champion?

Do YOU have what it takes to be a Litter Champion?

This year alone, we have picked up 4,372.9 lbs of trash with the help of our partners at the Black Warrior Riverkeeper, UAB and our District 1 neighbors. By being responsible for our own waste, we set a positive example for others, reinforcing the idea that everyone plays a role in maintaining a clean and welcoming environment in District 1.

Being the change you want to see in the world means taking personal responsibility for making a difference, no matter how small. Instead of waiting for others to act, lead by example and embody the values and behaviors you wish to see in others. These small, individual acts of service have a way of snowballing into major improvements in our communities.

**Help us reach our goal of securing 2,024 signatures.**

Take the pledge today and agree to be litter free [www.bhmdistrict1.com/powerofone](http://www.bhmdistrict1.com/powerofone)

Power of ONE

## D1 Paving UPDATES

Addressing infrastructure needs throughout District 1 has been a chief priority for Councilor Clinton Woods since stepping into office. "We're still devoted to coordinating with residents across the district to identify priority streets that need repaving. Even with the significant progress we've achieved over the last few years, we never stop. Completing the entire list is always our goal." said Woods.

As part of the City's \$12.9 million resurfacing plan, Councilor Woods continues to work with City officials to address additional problem areas throughout District 1. Residents are encouraged to recommend roads that they feel should be labeled as high priority.
